

Волоконный фильтр 3/4", подключение 8/6 мм, с ситом 0,5 мм, двухсторонним, Трубка для подсоединения, 8/6 мм
Art. no.: 0101-120-00

Brief description

Fiber filter with screen pipe

Description

Fiber filter 3/4" with screening pipe for retaining impurities in the sample water to prevent entry in the measuring cell. Fiber filter including screw connections for sample water pipes and securing clamps for mounting on a plate.

Technical data

Connections fiber filter:	Internal thread 3/4"
Screening pipe - material:	Nylon in plastic cage
Mesh size of screening pipe:	0.5 mm

Double-sided screw connections:	PVC hose 8/6 mm
Pipe clamps for fiber filter:	DN30

Use

The fiber filter is used for pre-filtering the sample water so that no coarse impurities get into the measuring cell.
